TRACK SERIAL NUMBERS

Track item serial numbers after the sale or before and after the sale (full lifecycle). Lifecycle tracking provides an extra level of control and validation for your products.

DELIVER EFFICIENTLY

Process deliveries from a single screen. Verify products and collect outstanding payments. Schedule using our Centralized Delivery app or a third party routing service.

CREATE QUOTES

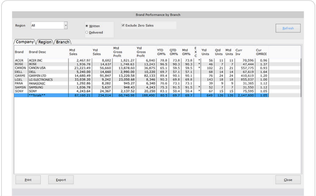
Put together a merchandise quote for the customer using the same process as entering a sale. Easily convert it to a standard sales transaction or save it for a later time.

The challenges are plenty.

While technology moves forward at blinding speed, margins continue to shrink as electronics become commodities that can be purchased just about anywhere. Well-informed consumers continue to use their smartphones and tablets to find the right products at the best prices.

Tools to stay ahead.

TylerNet has the tools to stay ahead, not just compete. Process sales and deliveries faster than ever before. Know the items that are selling, and the type of return you're getting. Recognize your top salespeople, and make your accountant's life a whole lot easier.



Create an amazing experience.

TylerNet's consumer electronics store point of sale software gives you the tools necessary to provide a first-class experience to everyone who comes into your store. Track all previous purchases made by a customer, including warranties, and access them in seconds on a single screen. Easily process a return or add the item to a work order. With the Customer Call Log, manage all correspondence with a customer regarding a specific purchase.

These are just some of the companies that depend on TylerNet each day:

Drumtine Audio Video | Groovebee | Classic Stereo | McKays Electronic Experts | Bay Bloor Radio | Drive-In Autosound | Bianco's | Electronic Integration | Barretts Technology Solutions

Designed to meet the specific needs of your business.

ORGANIZE & ANALYZE

Group items into brands, departments, and product categories and analyze the performance of each.

PACKAGE ITEMS

Bundle products, deliveries, installations, and warranties together, and sell for a collective price.

SERVICE ITEMS

Create work orders for in-store repairs or service/installations at the customer's residence or business.

OFFER LAYAWAY

Give your customers the option to put items on layaway. TylerNet handles the related financials seamlessly.

TRACK COMMISSIONS

Choose from several calculation methods to pay salesperson commissions accurately and on time, every time.

"Tyler enables us to access the information on a daily basis that is required for our team to make changes to match the fast-paced consumer electronics industry. I do not know how a retail chain could be run without having this information at their fingertips."

Chris Forbes, Director of Business and Marketing, Madman McKays, British Columbia
